B3	Total Governmental Assets	3.28%	3.37%
C1	Non-Homestead Tax Rate	0.42%	.44%

eCities examines eleven data points relating to community growth and investment metrics. Using the past five years' data (2017-2021), this document reports your community's growth rate ("Five-Year Community Trend" column) for each data point. The equivalent growth rates, ("Five-Year Comparison Trend" column), are displayed for the state of Michigan values for the first seven points, and the last four points for the 277 eCities 2022 participating communities.

A1-A7 are property values within the community as reported by the Michigan Department of Treasury.

B1-B3 are the year-end governmental assets as reported on your annual audited financial reports.

C1 is the tax rate(s) for non-homestead (non-PRE) properties within the community as reported by the Michigan Department of Treasury.
